Members of the General Assembly
State of Missouri

Ladies and Gentlemen:

The State Board of Education herewith submits its One Hundred Thirty-Ninth Report of the Public Schools of the State of Missouri. This report, prepared in compliance with Section 161.092, Missouri Revised Statutes, covers the school year ending June 30, 1988.

We hope the information contained in this report will be of interest and assistance to you as you consider the needs and major problems of the public schools of the State of Missouri.

Respectfully,

Roseann Bentley

Roseann Bentley, President
Missouri State Board of Education

Robert E. Bartman
Commissioner of Education

Linda L. Ward
Executive Secretary, State Board of Education

The State Board of Education was established in its present form by the Missouri Constitution of 1945. The State Board of Education consists of eight lay citizens appointed by the Governor with advice and consent of the Senate. Article IX, Section 2(a) also states that no more than four members of the Board may belong to the same political party. State Board members are appointed for eight-year terms which are arranged so that only one term expires each year. The Board elects its own officers.

The responsibilities of the State Board of Education extend from preschool through postsecondary and adult education programs. These responsibilities include:

- Establishment of policies for the leadership, service and regulation of public education. These policies are administered by the Missouri Department of Elementary and Secondary Education.
- Operation of the State School for the Blind and the State School for the Deaf.
- Operation of State Schools for Severely Handicapped Children.
- Classification of schools and certification of teachers.
- Administration of vocational education, vocational rehabilitation and veterans' education programs.
- Administration and supervision of programs under the Elementary and Secondary Education Act of 1965 and other federal programs.
- Apportionment of state moneys.
- Publication of laws relating to schools.
- Collection and publication of information which reflects continuously the condition and management of the state's public schools.

PART I.

Highlights of 1987-88

There were many important and notable events affecting Missouri's educational system during 1987-88, ranging from the appointment of a new Commissioner of Education to a sweeping revision of the state's teacher certification system. Following is a recap of the year's highlights.

Major Changes Approved in Certification Policies

During its February 1988 meeting, the State Board of Education gave final approval to a major new policy that eliminates lifetime certificates for public school teachers in Missouri. The Board's action culminated more than two years of planning and debate over changes in the state's certification requirements.

Except for some vocational teachers who are not required to have college degrees, the new policy will apply to all teachers who qualify for certificates after September 1, 1988. The new policy was required by a state law enacted in 1984.

"This policy marks a big change for Missouri—a change for the better," said Commissioner of Education Robert Bartman. "I think it will improve the status of the teaching profession in our state."

The policy adopted by the Board creates a four-step process that requires teachers to periodically renew their credentials and to meet certain requirements at each step. The plan culminates with a "continuous professional certificate" for teachers who have 10 years of experience, a master's degree, a professional growth plan, and a record of performance based evaluations.

1987-88 Education Statistics in Brief

Number of Public School Districts	545
Fall Enrollment	
High School Districts (K-12)	790,280
Elementary Districts (K-8)	11,780
State Total (K-12)	802,060
High School Graduates	51,316
Number of Staff	
Classroom Teachers	49,872
Principals/Assistant Principals	2,445
Superintendents	451
Assistant Superintendents & Other Central Office	742
Other Certificated Staff	4,842
Total of All Staff	58,352
Average Salaries of Staff	
Classroom Teachers	$24,709
Principals/Assistant Principals	38,591
Superintendents	46,756
Assistant Superintendents & Other Central Office	42,485
Other Certificated Staff	27,397
Average of All Staff	25,910
Current Expenditures	
State Total	$2,634,661,814
Current Expenditures per ADA*	$3,641
Average School Tax Levies (After Proposition "C" Adjustment)	
High School Districts	$2.50**
Elementary Districts	$2.21**
Average for All Districts	$2.45**

**Average Daily Attendance*
***After Reassessment*

OVERVIEW

Missouri's New Teacher Certification Process

(Effective Sept. 1, 1988)

◆◇◇◇

A two-year Professional Certificate I (PC I) is issued to

- graduates of approved Missouri teacher education programs, or
- graduates of approved out-of-state teacher education programs who meet Missouri's minimum certification requirements.

(Teacher education programs in public and private institutions in Missouri must be approved by the State Board of Education. Out-of-state programs must be approved by the respective state education agencies.)

◆◆◇◇

A three-year Professional Certificate II (PC II) is issued to teachers who

- verify two years of accepted teaching experience,
- develop and implement a professional growth plan, including participation in an entry-year mentor program and beginning teacher assistance program, and
- participate in performance based teacher evaluations.

◆◆◆◇

A five-year Professional Certificate III (PC III) is issued to teachers who

- verify a total of five years of accepted teaching experience,
- continue a professional growth plan,
- earn six hours of college credit,
- complete 30 clock hours of inservice education, and
- participate in performance based teacher evaluations.

(The PC III may be renewed an unlimited number of times by repeating the requirements during the previous five years.)

◆◆◆◆

A Continuous Professional Certificate (CPC) is issued to teachers who

- verify a total of 10 years of accepted teaching experience,
- earn a master's degree,
- continue a professional growth plan, and
- participate in performance based teacher evaluations.

When a teacher is ready to advance from one level of certification to the next, the employing school or district must verify that he or she has completed all the requirements. This verification must appear on the certificate application form provided by the Department of Education.

(See "Overview," page 8, for details of the new certification plan.)

The Board's policy adds a new dimension to previous certification standards by requiring that beginning teachers (those certificated after September 1, 1988) work with "mentors" and that school districts provide formal assistance to encourage all teachers' professional growth.

1988 MMAT Scores Increase Sharply

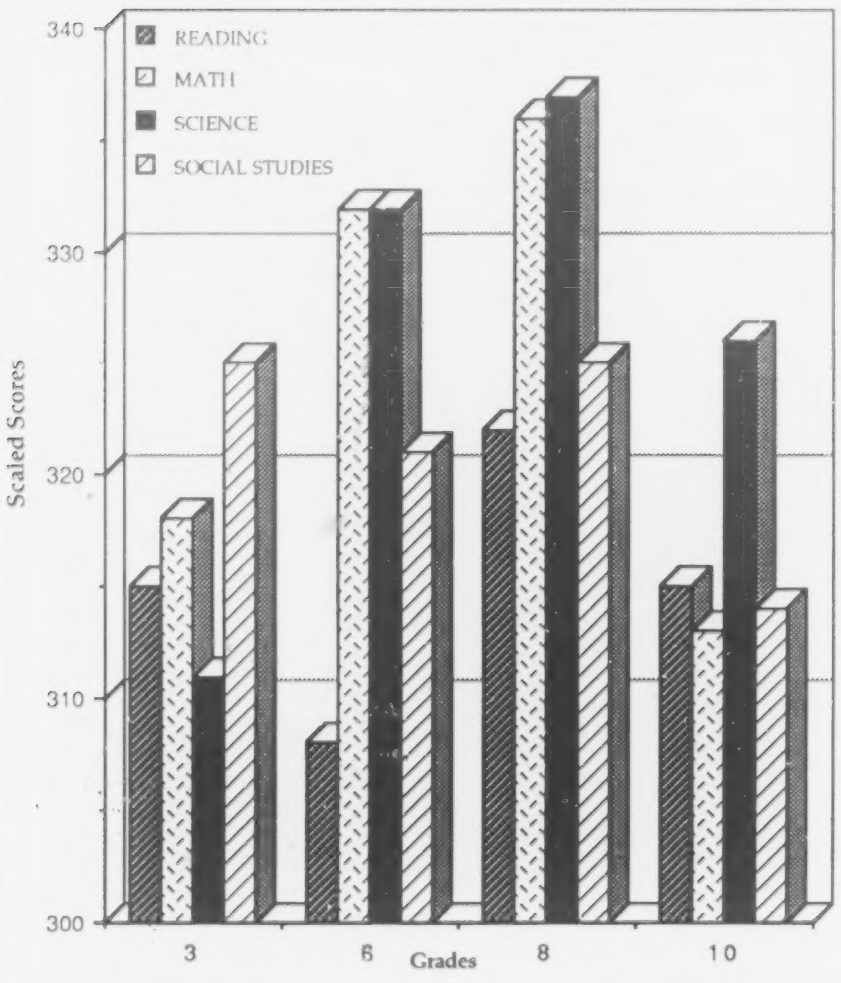
Public school students in Missouri chalked up major gains in 1988 in the second round of the Missouri Mastery and Achievement Tests (MMAT). The tests were given during April 1988 to about 425,000 students in grades 2-10 in school districts statewide.

Statewide results from the MMAT were released in June 1988 by the Department of Elementary and Secondary Education. Results from a statewide sample of about 20,000 students in grades 3, 6, 8 and 10 showed that academic performance improved at all four grade levels in the areas of reading, math, science and social studies.

The tests were developed by the

1988 Results of the Missouri Mastery and Achievement Tests (MMAT)

(Statewide Sample Testing, Grades 3, 6, 8 & 10)



About 425,000 Missouri students (grades 2-10) took the Missouri Mastery and Achievement Tests (MMAT) during April of 1988. This chart shows the results from a statewide sample of students selected by the Department of Elementary and Secondary Education. The sample included about 20,000 students—5,000 each in grades 3, 6, 8 and 10.

Compared with 1987, the 1988 sample showed improved performance at every grade and in every subject tested. As shown in this chart, the improvements ranged from 8 points (grade 6, reading) to a high of 37 points (grade 8, science).

State MMAT results are reported in terms of "scaled scores." After the MMAT was given for the first time in 1987, a scaled score of 300 was set as the "baseline" state average for all subjects and grades.

Department of Education and the Center for Educational Assessment (CEA) at the University of Missouri-Columbia, as a result of the Excellence in Education Act of 1985. The tests were administered for the first time in 1987 in grades 3, 6, 8 and 10.

"We are excited and delighted with these results. The gains are real and, in some cases, remarkable. Teachers across the state have worked hard to make these improvements, and their efforts have given us a big boost in academic productivity," said Commissioner of Education Robert Bartman when the statewide results were released.

The gains in 1988 MMAT scores ranged from 8 to 37 points above the baseline state average of 300 for 1987. State averages for the MMAT are reported in terms of "scaled scores." Based on the state sample's performance in 1987, 300 was established as the state average scaled score for all grades. (See chart, page 9.)

Bartman said state education officials were especially pleased with improvements in the math and science scores in grades 6 and 8. The MMAT scores in these areas all improved by at least 32 points over 1987, and the science score for eighth graders jumped by 37 points.

The test results also showed that Missouri students are meeting or exceeding national averages in every area tested by the MMAT. According to national norms, Missouri students made big gains in several areas.

The MMAT battery is made up of criterion-referenced tests based on specific "key skills" for each subject and grade level. Because the tests are unique to Missouri, their results cannot be directly compared with the norms from commercial achievement tests.

Because of this factor, students included in the statewide MMAT sample also take portions of the Iowa Tests of Basic Skills (ITBS) in grades 3, 6 and 8, and the Tests of Achievement and Proficiency (TAP) in grade 10. With these data, scores on the MMAT can be equated with scores on the two widely used national tests.

Using this comparison with national averages, the *lowest* score for Missouri students in 1988 was at the 50th percentile in eighth grade language arts. Third graders made the highest score—at the 70th percentile—in social studies. The science score for tenth graders jumped from the 48th percentile in 1987 to the 64th percentile in 1988.

"If you think of the state as a giant school district with more than 800,000 students, the MMAT scores are simply excellent. Improvements of this magnitude just don't happen very often in large-scale testing," Bartman said.

In addition to the state's random-sample testing, local districts are required to give the tests (or state-approved equivalents) to all students in four grades of their choice—two non-consecutive grades at the elementary level and two non-consecutive grades at the secondary level. Districts receive separate, detailed reports about their students' performance on the MMAT.

The "BEST" is Over

The State Board of Education voted in July 1988 to drop its requirements that all public schools give the Basic Essential Skills Test (BEST). The Board decided to eliminate the BEST because of its overlap with the Missouri Mastery and Achievement Tests and to prevent unnecessary testing. As a result of the Board's decision, no Missouri students will be required to take the BEST in 1989.

The BEST was adopted as a requirement by the Board in 1979. Until the advent of the MMAT, the BEST was the only state-mandated achievement test in Missouri. The BEST was a three-part, minimum-competency exam covering reading, language arts, math, and government/economics. It was given to all eighth graders annually and to high school students who had previously failed any section of the test.

About 43,000 eighth graders took the BEST in 1988 and posted the highest scores in the 10-year history of the test. In the 1988 testing, 84.1 percent of the eighth graders passed all three sections of the BEST, an increase of 4.1 percent over 1987. In 1979, when the BEST was required for the first time, only 65 percent of the eighth graders passed.

Although districts are required to use the MMAT in four grade levels, about half of the state's school districts elected to give the entire MMAT battery—grades 2-10—in 1988.

The state's random sample testing included about 5,000 students each in grades 3, 6, 8 and 10. The sample is carefully selected to represent the entire state. These four grades will continue to be tested annually by the Department of Education in order to reveal trends in statewide academic performance.

The MMAT covers different numbers of key skills at each grade level, ranging from a low of 27 in grade 2 to a maximum of 97 in grade 10. Four multiple-choice test items are used to test each key skill. Students are required to answer three out of four items correctly to show mastery of each key skill.

One of the most significant facts about the 1988 MMAT results, Bartman emphasized, is that "students demonstrated better achievement across the board, from the bottom to the top of the academic spectrum. These data show that Missouri teachers are helping *all* kids learn important skills, even those who usually rank poorly on standardized tests. This is a trend we want to sustain."

Board Approves Rules for "Long-Distance Learning"

Regulations governing high-tech teaching methods, including courses transmitted by satellite, were adopted by the State Board of Education in December 1987. The new policies were required because of the growing popularity of "distance learning"—courses for credit that are provided to schools via satellite broadcast.

Classes provided via satellite or computer give school districts new opportunities to offer specialized courses—physics and foreign languages, for example—to a small number of students or when the district does not have a fully qualified teacher for the class.

Distance learning started spreading quickly in Missouri because of the establishment of the Education Satellite Network (ESN) by the Missouri School Boards Association in 1987. ESN offers schools a way to receive interactive courses via satellite, plus an enormous variety of enrichment programs and

Robert Bartman Named Commissioner of Education

Robert E. Bartman, a staff member of the Department of Elementary and Secondary Education since 1973, was appointed Commissioner of Education on November 21, 1987. Bartman replaced Arthur L. Mallory who resigned in July after serving nearly 17 years as the state's top public school official.

Bartman was appointed by the State Board of Education following a nationwide search. He became just the third person to hold the commissioner's post since the office was created by the state constitution in 1945.

A St. Louis native, Dr. Bartman was born in 1944. He attended a small elementary school at Pond, near Eureka, Mo., and graduated from Eureka High School. He received his bachelor's degree from the University of Missouri-Columbia (UMC) in 1966 and was certificated to teach English. He also holds a master's degree in secondary school administration (1971), a specialist's certificate in curriculum (1972), and a doctorate in secondary school administration (Ed.D., 1975), all from UMC. Dr. Bartman taught high school English for three years at the University Lab School in Columbia while working on his graduate studies.

Dr. Bartman was in the Marine Corps from 1966 to 1969, serving as a platoon commander in Vietnam and attaining the rank of captain. After his service in Southeast Asia, he also served on the Marine Corps staff in Washington, D.C.

Dr. Bartman joined the staff of the state education agency in 1973, beginning as an intern and then supervisor in the Department's school laws section. In 1978, he became administrative assistant to the commissioner of education, a post he held for five years. In 1983, Dr. Bartman was appointed assistant commissioner for the division of administration, one of the Department's six main divisions. As assistant commissioner, he was responsible for the agency's internal operations, for developing the state's annual budget for elementary and secondary education, and for directing many of the Department's primary services for local school districts.

Commissioner Bartman is shown here observing a classroom at Point Elementary School in the Mehlville School District (St. Louis County) during April 1988. Visiting local schools was a priority for Bartman during his first year as Commissioner of Education.

In 1986, Dr. Bartman was promoted to deputy commissioner of education, the agency's number two position, where he served as chief of staff and as the Department's legislative specialist. He served as deputy commissioner until July 1987 when he was named acting commissioner of education.

Dr. Bartman and his wife, Karen, have three children in public schools. Mrs. Bartman is a professional music instructor who operates her own piano studio.

The article on the next page outlines the major themes that Dr. Bartman stressed during his first year as Commissioner of Education.

other learning resources that are available through national and international satellite broadcasts.

With the creation of ESN, Missouri became recognized as a national leader in the application of new technology to teaching and learning. During 1987-88, about 40 school districts in Missouri joined ESN and offered such courses as German, calculus and physics—all of which originated at Oklahoma State University.

The regulations adopted by the Board in 1987 call for the Department of Elementary and Secondary Education to determine, on a course-by-course basis, what qualifications a teacher must have to lead a class that is provided through electronic media.

In some cases, for example, any certificated teacher may be eligible to supervise a live-broadcast class that is taught by a professor or teacher elsewhere. In other cases, it may be determined that a teacher must have specific training or a certain number of college hours related to the subject.

"The Department of Education supports the use of modern technology, and we don't want to restrict new ideas. However, state law requires that students be supervised by certificated teachers, and we think this also applies to classes provided by satellite," said Otis Baker, assistant commissioner for the Department of Education.

(Continued on page 14)

An Agenda for the Future

By Robert E. Bartman

Since being named Commissioner of Education last November, I have been emphasizing three basic themes as the foundation of my agenda for the future. While these ideas do not encompass all of my personal goals or all the priorities of the Department of Elementary and Secondary Education, I hope they provide a sound framework and a sense of mission for state-level efforts to improve public education in Missouri in the years ahead.

Sustaining Reform

Secretary of Education William Bennett recently declared that the school-reform movement in America is at a "dead stall." I disagree with his assessment, and I certainly don't think it is true in Missouri. Since the publication of *A Nation at Risk* in 1983, and especially since the passage of the Excellence in Education Act in 1985, Missouri has made outstanding progress on several fronts and has maintained positive momentum for change.

While initiatives such as the career ladder, the minimum salary program, incentives grants for teachers, the Leadership Academy and others have made a successful beginning over the past three years, these programs have not "matured"; their impact is not yet being felt statewide. In addition, some of the most significant aspects of the Excellence Act—such as new testing requirements for prospective teachers and precertification "assessment" criteria for prospective administrators—do not become effective until this fall. The effects of these measures will not "soak in" immediately, and we have much to do to assure that these new policies are carried out effectively.

Missouri's school-reform campaign did not result exclusively from the Excellence Act. Our early childhood and parent education programs, for example, are growing rapidly and should pay great dividends. State funding for education has increased, largely as a result of the push for reform. A major overhaul of teacher-credentialing policies has just been adopted by the State Board of Education. New graduation standards have been implemented. Programs for gifted students continue to expand at a steady pace across the state. All of these activities are important elements in Missouri's reform "package."

Many states are already backing away from ambitious school-reform plans that were enacted with great fanfare. I hope Missouri can avoid such wasted effort. We need to evaluate our current reform activities, refine our efforts and keep the *spirit* of reform alive.

Capturing a Lost Resource

Today, one out of four Missouri ninth graders does not complete high school. While this attrition rate has virtually become accepted as the "norm" across the nation, our society can no longer afford such a high dropout rate. If present trends hold, more than 15,000 students who are freshmen in Missouri high schools this year will not graduate with their class in 1991.

We must not ignore the extent of this problem, and we must seek new ways to "recapture" this lost resource.

Many factors contribute to the dropout syndrome—academic problems, pregnancy, drug abuse, family stress, alienation, boredom and others. Schools cannot solve all these problems alone, and we must seek the involvement of community leaders and other agencies to assist our work in helping at-risk students.

Family Involvement

When families are involved in and demonstrate an active interest in their children's learning, children perform better and behave better in school. This simple fact is why schools have a responsibility to promote constructive family involvement.

We must find new ways to help parents become "reacquainted" and "reconnected" with school and with the learning process. Because of changing family structures and social pressures, we must do more than give lip service to the goal of family involvement. Parents can reinforce teachers' efforts (extending the school day, in effect) if we clearly define our learning objectives and if we provide genuine opportunities for two-way communication.

These three topics form the heart of my personal agenda for education in Missouri. I hope you agree these goals are worth pursuing as we work to build a school system for the 21st century. □

This article is reprinted from the April/May 1988 edition of Missouri Schools, *the magazine published by the Department of Elementary and Secondary Education.*

Summary of Legislation

Following is a recap of important education-related legislation approved by the 84th General Assembly during its second regular session in 1988.

4/7ths Bond Issue Majority

The General Assembly adopted a joint resolution calling for a constitutional amendment to change the two-thirds vote majority required for approval of bond issues in local school districts and other political subdivisions. The measure, known as Amendment No. 4, appeared on the primary election ballot in August 1988 and was approved by voters statewide.

This amendment reduced the vote majority needed for approval of bond issues to four-sevenths (57 percent) from two-thirds, but only on certain election days. The amendment requires that bond issue elections be held on the general municipal election day (April school election day), primary election day (August), or general election day (November) for the four-sevenths majority to apply. Bond issue elections held on other dates will still require a two-thirds majority for passage.

Senate Bill 797

This omnibus bill included several provisions affecting public schools. The minimum tax levy and certificate revocation provisions were recommended by the State Board of Education as specific legislative priorities. The provisions of Senate Bill 797 included:

Minimum Tax Levy. This provision requires all school districts to levy a property tax of not less than $1.25 per each $100 of assessed valuation, after all adjustments and reductions, in order to be eligible for state education aid. This requirement became effective January 1, 1989.

Certificate Revocation. This provision grants the State Board of Education authority to refuse to issue a teaching certificate or to revoke the certificate of any person convicted of a felony or a crime involving moral turpitude. Previously, the Board could initiate certificate revocation proceedings only at the request of a local school board.

Mandatory Kindergarten. This provision requires that all school districts provide free public education for children between the ages of 5 and 6, beginning with the 1988-89 school year. Further, the measure requires that schools provide a kindergarten term of at least 174 days and 522 hours.

Immunization Requirements. This provision stipulates that no child may enroll in or attend any public, private or parochial day care center, preschool or nursery school for 10 or more children unless the child has been adequately immunized against vaccine-preventable childhood diseases as specified by the Missouri Department of Health. This measure extends previous state immunization requirements that had applied to all public schools to include public and private preschool and day care programs.

Video Instruction Program

Senate Bill 709 established the "Video Instructional Development and Educational Opportunity Program" (VIDEO) to encourage all educational institutions in Missouri to expand and enrich their programs through the use of telecommunications and satellite broadcast instruction. The bill eliminated the sales tax exemption on the rental of videotapes across the state—a new source of revenue that advocates estimated would generate from $5 million to $10 million per year. The new sales tax became effective January 1, 1989.

The law provides that funds made available through the VIDEO program be used for: (1) grants to school districts, state-supported institutions of higher education and public television stations for equipment and other costs; (2) grants for the development and transmission of instructional programs which are to be available to all residents of the state without charge; and (3) grants for developing instructional programs which could be made available to any subscriber.

The VIDEO program is to be administered by the State Board of Education and the Department of Elementary and Secondary Education, with advice from a 27-member advisory committee that is required under the law.

Commission for the Deaf

The legislature approved a measure creating the Missouri Commission for the Deaf within the Department of Elementary and Secondary Education. The nine-member commission will be appointed by the governor. The commission is to serve as an advocate for hearing-impaired citizens in Missouri and to certify interpreters for the deaf.

AIDS Control

The legislature adopted a major bill aimed at controlling the spread of Acquired Immune Deficiency Syndrome (AIDS) in Missouri. Most of the new law is concerned with testing for AIDS, reporting of test results to the Missouri Department of Health, and measures designed to protect the privacy of those who are tested. The bill also directed the Department of Elementary and Secondary Education to develop educational programs about AIDS and its prevention.

Elections

This law (H.B. 933, et.al.) included a provision prohibiting the contribution or expenditure of any public funds by any officer, employee or agent of any political subdivision (including school districts) for the purpose of advocating, supporting or opposing any ballot measure or candidate for public office. The measure does not prohibit officials of political subdivisions from making public appearances or issuing press releases concerning ballot measures.

State Board Suggests Policy on AIDS

During its October 1987 meeting, the State Board of Education recommended that local school districts adopt policies and procedures that would generally permit students with Acquired Immune Deficiency Syndrome (AIDS) to attend school and would allow school employees infected by the disease to continue working, unless they present a clear danger to others.

The guidelines were intended to assist local school districts in developing their own policies to deal with the threat of AIDS and other infectious diseases.

The recommended policy acknowledged that state law permits schools to exclude students who have communicable diseases. This law is routinely enforced in cases involving head lice, measles, mumps and other diseases that can spread through casual contact.

Recent federal court cases, however, have indicated that students and employees who have chronic diseases—including such things as AIDS, hepatitis and tuberculosis—cannot be automatically excluded from attending school or doing their job.

The Board's recommended policy suggested a case-by-case evaluation of a student or employee who is infected with AIDS to determine whether the individual can attend school without posing undue risk to others. Evaluations would be conducted regularly by a team including the student's parents or guardian, school officials, the family physician, public health officials and others.

The guidelines adopted by the Board also included suggested procedures for informing the public about the presence of an infected student or employee in school and for maintaining confidentiality about such cases.

New Evaluation Plan to Recognize Achievement

In a pilot program approved by the State Board of Education in November 1987, 115 school districts volunteered to begin testing procedures for a "Voluntary Academic Achievement Standard." The program is designed to recognize school districts that demonstrate significant academic gains.

New Board Members Named

Gov. John Ashcroft appointed three new members of the State Board of Education in July 1987. They were sworn in during the Board's August meeting. The three newest members of the Board are:

•**Thomas R. Davis,** Sedalia, replaced Robert L. Welling, Warrensburg, who had been a member of the Board since 1980. Davis is president of Septagon Industries, Inc., a holding company for several construction-related firms. He graduated from the University of Missouri-Columbia in 1968 with a degree in engineering. His term on the Board ends July 1, 1995.

•**Susan D. Finke,** Richmond, replaced Jimmy Robertson, St. Joseph, a member of the Board since 1979. Mrs. Finke is a former schoolteacher and member of the Richmond R-XVI Board of Education. She served as president of the Richmond board for five years and has held several regional offices in the Missouri School Boards Association. She is a graduate of the University of Missouri-Kansas City. Her term on the State Board ends July 1, 1994.

•**Roger L. Tolliver,** Poplar Bluff, replaced Delmar A. Cobble, Cape Girardeau, who had been a member of the Board since 1977. Tolliver is president and chief executive officer of the Commerce Bank of Poplar Bluff. He graduated from Southeast Missouri State University in 1973 with a degree in business administration. His term on the Board ends July 1, 1992.

State Board of Education members are lay citizens appointed by the governor and confirmed by the senate. They serve staggered, eight-year terms. No more than four members of the Board may belong to the same political party, and no more than one member of the Board may reside in the same county or congressional district. When terms expire, Board members continue to serve until being replaced or reappointed.

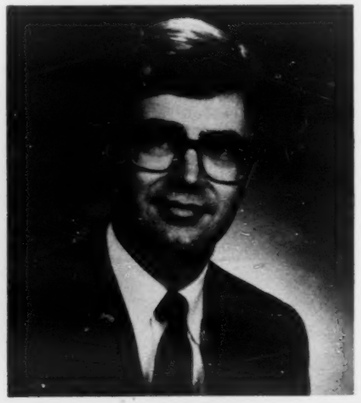
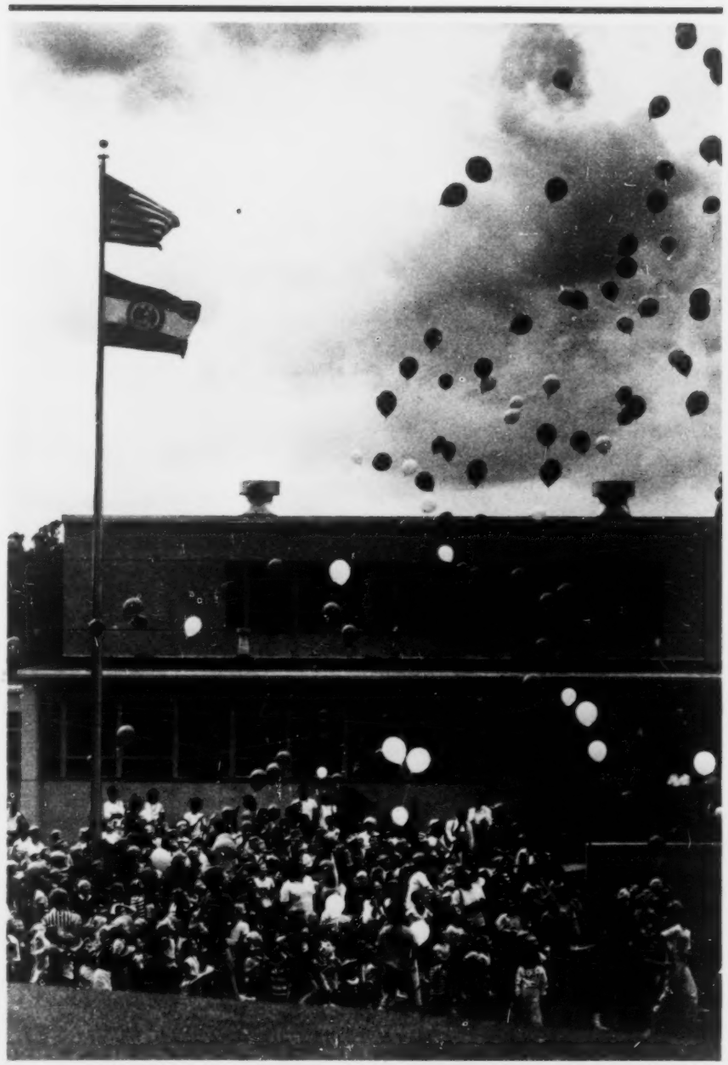
Finke



Tolliver



Constitution Bicentennial

Throughout 1987-88, schools and communities across America celebrated the Bicentennial of the U.S. Constitution. The national celebration kicked off on September 16-17 with a series of special events intended to involve students in learning about the Constitution. The events included "Bells Across America," a coast-to-coast bell-ringing ceremony to mark the signing of the Constitution. In "A Celebration of Citizenship," a live TV broadcast from Washington, D.C., that was viewed by thousands of schoolchildren, top government officials led the nation in unison recitations of the Pledge of Allegiance and the Preamble to the Constitution.

At Moreau Heights Elementary School in Jefferson City (above) students joined the nationwide celebration on September 16 with flag ceremonies and a red, white and blue balloon launch.

The Voluntary Academic Achievement Standard, under development since 1984, is intended to supplement the state's current system for accrediting school districts. Districts are now classified as "AAA," "AA," or "Unclassified," according to how well they meet state educational standards.

"Currently, our school-classification system is based only on 'input' standards such as library facilities, teacher/pupil ratios, and the number of faculty members. We hope this new process will add a dimension to the classification rating that reflects 'output' or achievement," said Roseann Bentley, president of the State Board.

The system is based on results from the Missouri Mastery and Achievement Tests (MMAT), state-developed exams given for the first time in spring 1987. The tests cover the areas of reading, mathematics, science and social studies.

Districts taking part in the pilot project used 1987 MMAT results as "baseline" data. To qualify as "improving," districts must post higher scores on three of the four areas covered by the MMAT and not decline in the fourth area.

When the Board announced the pilot program for the Voluntary Academic Achievement Standard, it originally sought about 50 school districts to participate. However, a total of 115 districts volunteered for the project.

"Parents as Teachers" Wins National Award

The "Parents as Teachers" (PAT) program, Missouri's acclaimed preschool program, was recognized in September 1987 as one of 10 national winners in the 1987 Innovations in State and Local Government Awards Program, sponsored by the Ford Foundation and the John F. Kennedy School of Government at Harvard University.

The prestigious award included a $100,000 grant. Of the 10 programs chosen for the award, the PAT project was the only one involving public education. More than 1,000 state, county and city projects throughout the country competed for the awards.

The Parents as Teachers program was created by state law enacted in 1984; state funds were first provided for PAT services during 1985-86. An esti-

mated 53,000 families with children under the age of 3 took part in the voluntary program during 1987-88. More than 40,000 1- and 2-year-olds were screened for potential health and learning problems.

The PAT program is provided by all public school districts in Missouri. About 30 percent of all eligible families in the state took part in the PAT program this year.

The $100,000 Ford Foundation grant will help to strengthen and expand the PAT program in the state and to support activities of the Parents as Teachers National Center, located at the University of Missouri-St. Louis. It will provide for additional training programs for parent educators across Missouri as well as continuing research to document the program's effectiveness.

Missouri Hosts National Meeting on Early Childhood and Parent Education

A forum to encourage the development and expansion of programs to assist young children and parents was held October 19-20, 1987, at St. Louis. The meeting, titled "Investing in the Beginning: New Directions in Public Policy for Young Children and Their Families," was organized by Gov. John Ashcroft and the Education Commission of the States (ECS). The Department of Elementary and Secondary Education planned and coordinated the conference.

Attended by lawmakers, private-sector leaders and state officials from across the nation, the forum highlighted Missouri's Parents as Teachers program and other states' initiatives to assist families and young children. The conference was designed to encourage educators and lawmakers in other states to recognize the benefits of early childhood and parent education and to develop new policies supporting such programs.

Featured speakers for the conference included Owen "Brad" Butler, former chairman of the board of Procter & Gamble, Ernest Boyer, president of the Carnegie Foundation for the Advancement of Teaching, and Edward Zigler, a Yale University professor and founder of the national Head Start program.

Gov. John Ashcroft, Gov. Bill Clinton of Arkansas, Gov. Rudy Perpich of Minnesota, and Bea Miller Romer, wife of Colorado's Gov. Roy Romer, participated in a "Governors' Roundtable" to kick off the conference.

Six Missouri Schools Join "Accelerated Schools" Project

Six elementary schools in Missouri joined this year with state education officials and a Stanford University professor to develop model programs which they hope will help close the gap between high- and low-achieving students.

With start-up grants provided by private foundations, the Department of Elementary and Secondary Education organized the "accelerated schools" project to begin in the fall of 1988.

The purpose of the project is to show that all children can learn successfully in elementary school, develop positive attitudes about their own abilities and be motivated for future learning. The ultimate goal of the project is to prevent problems that cause many students to drop out when they get older.

Professor Henry Levin
Stanford University

The project is unusual because it will emphasize accelerated, enriched learning for all children—including disadvantaged students—instead of conventional "remedial" techniques for those having academic difficulties.

"We know that many students are well on their way to becoming dropouts by the end of the sixth grade because of a pattern of early academic failure, absenteeism and lack of motivation. For many of these students, remedial education is only marginally effective, so we need to prevent academic problems in the elementary school," said Commissioner of Education Robert Bartman, when the project was announced in May 1988.

The six schools taking part in the project are Bancroft Elementary, Kansas City School District; Briar Crest Elementary, Pattonville School District; Clark Elementary, St. Louis School District; Eugene Field Elementary, Hannibal School District; Pershing Elementary, University City School District; and Mark Twain Elementary, Poplar Bluff School District.

Henry Levin, a Stanford University professor who developed the accelerated schools concept, is serving as a consultant for the project. Dr. Levin is a nationally known researcher in education and an authority on disadvantaged students. Levin and his staff at Stanford University are working with state education officials to train local school personnel taking part in the project.

Elementary Schools Receive National Recognition Award

Four public schools in St. Louis County received national recognition for excellence in the 1988 Elementary School Recognition Program, conducted by the U.S. Department of Education.

The winning schools, announced in May 1988, were among 287 public and private schools across the country chosen for recognition. Missouri's winners: Flynn Park Elementary, University City School District; Green Trails Elementary, Parkway School District; Hanna Woods Elementary, Parkway School District; and Spoede Elementary, Ladue School District.

Teacher of the Year Finalists

Robin D. Montz *(fourth from left)*, a high school psychology and social studies teacher at Neosho High School, was named Missouri Teacher of the Year for 1987-88. Montz and the four state finalists shown in this photo were honored Dec. 17 at a luncheon hosted by the State Board of Education in Jefferson City. The event was sponsored by the Missouri School Public Relations Association, with support from The Boatmen's National Bank of St. Louis.

The four runners-up for Teacher of the Year honors were *(from left)*: **Louise Greenfield,** a teacher of elementary gifted students in the Blue Springs R-IV School District; **Linda Kralina,** a chemistry teacher at Hazelwood Central High School (St. Louis County); **Katherine Graves,** a marketing teacher at Kirksville Area Vocational-Technical Center; and **Janice Malott,** an art teacher at Truman High School, Independence School District.

In 1987, for the first time, finalists in the Missouri Teacher of the Year Program received cash awards as part of their state-level recognition. The Boatmen's National Bank of St. Louis contributed funds for the awards. **John T. Lamping** *(third from left)*, vice president of Boatmen's Bank, presented the Teacher of the Year with a $1,000 check. Each of the four finalists received $250.

Five Missouri schools were chosen as national finalists in the program and were visited by evaluation teams before the winning schools were selected. Along with the four St. Louis County schools, New Franklin R-I Elementary School (Howard County) was Missouri's other finalist. Nationally, almost 650 schools were nominated.

The School Recognition Program was established by the U.S. Department of Education in 1983. It now honors elementary and secondary schools in separate competitions in alternating years.

Conference Focuses on At-Risk Youth

Finding ways to reduce the dropout rate in Missouri high schools was one of the major goals of the "Students at Risk" conference held December 7-8, 1987, at the Lodge of the Four Seasons, Lake of the Ozarks. The meeting was sponsored by the Department of Elementary and Secondary Education.

It was the first state-level meeting of its kind in Missouri to focus on dropout prevention and the needs of other "at-risk" youth. Nearly 600 educators, community leaders and government officials attended.

The conference focused on issues ranging from early academic failure to teen pregnancy and drug abuse—factors which contribute to the high dropout rate and to other personal and social problems.

Featured presenters at the conference included Henry Levin, a Stanford University professor and authority on disadvantaged students, and Alvin Poussaint, M.D., a Harvard Medical School specialist on the problems of black families. The program also included dozens of workshops conducted by Missouri educators who presented a wide variety of programs designed to assist at-risk youth.

The LEADERSHIP ACADEMY

PART II.

A Special Report on the Missouri Leadership Academy

Helping Missouri administrators meet the challenge of school leadership

If they had the chance, Missouri school administrators would tell the National Commission on Excellence in Education that the "rising tide of mediocrity" engulfing the nation's schools never reached Missouri's inland classrooms. Despite the disturbing conclusions of the commission's 1983 report, *A Nation at Risk*, they would say Missouri schools have never departed from the basics or the ways of effectiveness and excellence.

Confidence in the state's public school system, however, has not kept Missouri's school leaders from responding enthusiastically to the challenges of the school-reform movement ignited by *A Nation at Risk*, and to new opportunities for professional growth. They are aware that Missourians, and Americans in general, are asking more and more of the public schools. These challenging times demand that superintendents and principals have a solid belief that all students can learn, a clearer mission for their schools, a more intense instructional focus, and a multitude of leadership skills.

Lawmakers in Missouri, in passing the Excellence in Education Act of 1985, recognized the importance of the school leader's role. The comprehensive school-improvement law created a "principal-administrator academy" to assist administrators in their pursuit of excellence. The legislators knew the success of the school-reform law would depend on the quality of leadership in local schools.

Responsibility for developing the administrator academy was assigned to the Department of Elementary and Secondary Education. Former Commissioner of Education Arthur L. Mallory appointed a 19-member advisory committee to work with a staff of three professionals and one secretary on the new project, which was named "The Leadership Academy."

Superintendents, principals, teachers, board members, higher education and the private sector were represented on the committee. Beginning in September 1985, the committee and staff met monthly to prepare recommendations for the State Board of Education

on the philosophy, goals and priorities of the academy.

The committee studied existing administrator academies and principal centers throughout the country, heard consultants with experience in administrator inservice, and reviewed research on effective adult education. The committee found itself faced with many challenges and a variety of opinions on how to best meet each one. Because Missouri has 545 separate school districts with 545 chief executive officers, and more than 2,000 building principals across the state, the committee also faced the basic problem of logistics.

Early on, the advisory committee decided that the academy's activities should focus on improving instruction at the classroom level. In addition, the committee agreed that the academy's goals should be to promote

- the school leader as an educator with strong skills in the areas of instruction and management, who is capable of developing effective schools where quality classroom instruction is the primary mission.
- the image of the school leader as a top-level executive, a person responsible for the future of communities, states and the nation through the management of education.
- the image of the school leader as a model for continuous, lifelong learning and of the principal as the school's "head learner."
- the school leader's need for continuous growth and development opportunities as society's expectations change and as the administrator's role becomes more demanding and complex.
- the development of administrative skills to assess the effectiveness of schools, especially in the area of student achievement.
- the school leader as a risk-taker, a professional with integrity who is willing to stand firm when students' best interests and quality instruction are at stake.
- administrator "networking" for the purposes of collegial support, peer recognition, sharing ideas, issuing professional challenges and exchanging solutions.

Business and industry have long recognized the value of providing their leaders with opportunities to update their skills and grow professionally. By creating the Leadership Academy, Missouri has made a commitment to making the same kind of investment in its educational leaders.

Since the Leadership Academy offered its first workshop in November 1985, more than 90 percent of Missouri's school districts have taken advantage of its programs. Administrators have found quality workshops designed to help them make their schools more effective. They have found well-respected speakers able to provide practical assistance with instructional leadership, staff motivation and evaluation, financial management, and personal growth.

Programs

The Academy's first offering for Missouri school administrators was a series of workshops on the late Ron Edmonds' effective schools research. Edmonds and the researchers who have followed him identified five characteristics of instructionally effective schools: 1) a principal who is a strong instructional leader, 2) teachers and administrators who have high expectations for all students, 3) a safe, orderly, positive climate for learning, 4) a pervasive, broadly understood instructional focus, and 5) frequent monitoring of student progress.

On Nov. 19-20, 1985, more than 130 principals attended the first workshop in the effective schools series, *Influencing Effective Instruction in the Elementary School*, in Jefferson City. By the end of the year, more than 1,100 Missouri administrators had participated in the academy's effective schools workshops.

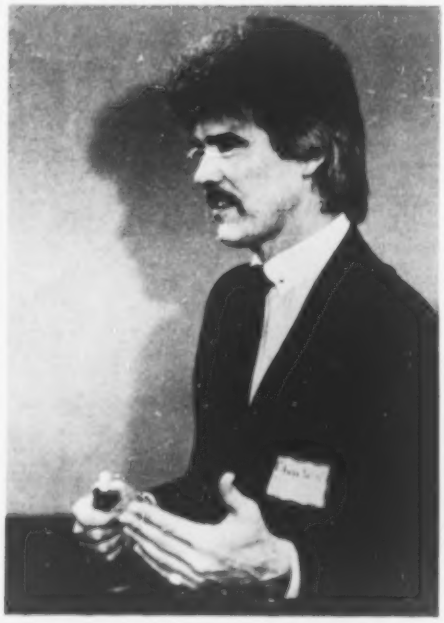
The Leadership Academy describes its growing list of services and programs in a catalog, which is published each summer. Workshops are offered in both central and regional locations. Regional programs are sponsored in cooperation with the University of Missouri at Columbia, Kansas City and St. Louis, and the state universities at Cape Girardeau, Kirksville, Maryville, Springfield and Warrensburg.

The regional workshops give school administrators an opportunity to attend academy programs with minimal travel expense. This is an important consideration, because the legislature established the academy as a cost-recovery operation. State funds are provided for administration, but workshops must be supported by registration fees.

During 1987-88, the academy offered a variety of workshops to assist school administrators in becoming better managers and instructional leaders. In addition to the still-popular Effective Schools Workshop Series, the academy offered *Tactics for Teaching Thinking, Cognitive Coaching, Basic and Advanced Performance Based Principal and Teacher Evaluation, Special Education Evaluation Model for Administrators*, and a series of workshops for transportation directors.

Time Management and Other Administrative Skills, conducted by Ivan Fitzwater, was another well-received session. It was offered in six regional locations this year. *Peer Coaching and Other Tools for the Instructional Leader* was offered in two regional locations and will be offered in the six remaining regions during the 1988-89 school year.

The academy began compiling an audio- and videotape library for admin-



Dr. Ivan Fitzwater (left) and Dr. Charles Mitchel presented two of the Leadership Academy's most popular 1987-88 programs. Fitzwater, a professor at Trinity University in San Antonio, taught administrators how to improve student achievement by improving their own ability to manage time and stress. Mitchel, an assistant superintendent in the Newark, N.J., School District, led the introductory workshop in the effective schools series.

istrators this year. Local school officials now may borrow tapes on leadership topics such as "The Psychology of High Self-Esteem," "The Making of an Achiever," and "Being the Best." In addition, the library offers three audiotapes and one videotape by Ivan Fitzwater on time and stress management.

Videotapes on the effective schools research are available for purchase or loan. School administrators have found these tapes to be useful in improving their own leadership skills and providing inservice workshops in their districts.

Participants and Presenters

The Leadership Academy has conducted 132 workshops since it was created in 1985. Total attendance at academy programs climbed to 5,572 by the end of the 1987-88 school year. The attendees represent 593 school districts (public and private) and 2,705 individuals, including teachers, principals and assistant principals, business managers, curriculum directors, superintendents, and university faculty members. More than 90 percent of Missouri's 545 public school districts have sent personnel to the Leadership Academy for training.

The academy has attracted participants by using a combination of nationally recognized experts and Missouri practitioners as workshop presenters. This year's workshops featured Dr. Ivan Fitzwater, former school administrator and internationally known authority on time and stress management, and Dr. Charles Mitchel, who has earned national recognition for bringing about dramatic improvement in student achievement in a Newark, N.J., school where he served as principal.

Other well-known educators who have conducted sessions for the academy are Drs. Toni Haas and Susan Everson of the Mid-continent Regional Educational Laboratory (McREL); Dr. Robert Garmston, professor of education, California State University; Dr. Judi Arin-Krupp, an educational consultant and expert on staff development as it relates to life stages; Dr. Tom Goode, professor, Department of Curriculum and Instruction, University of Missouri-Columbia; Dr. Terry Deal of Peabody College, Vanderbilt University; and Dr. Rita Dunn of St. John's University in New York, a learning styles expert.

The Missouri practitioners who have presented academy workshops have been well received by their colleagues. Their experience and success in school administration and the practical nature of their programs have made them popular speakers. They have included Dr. Dan Deschamp, principal, Lafayette High School, Rockwood School District; Dr. Henry Russell, director of personnel, Raytown School District; Dr. Joyce Dana, deputy superintendent, Springfield School District; Lynn Solomon, assistant superintendent for business, Warrensburg School District; Dr. Al Burr, principal, Clayton High School; Dr. Dan Steska, principal, Perryville High School; Carole Kennedy, principal, Conn-West Elementary School, Grandview; and Dr. Gail Williams, interim superintendent, Lee's Summit School District.

LEAD Projects

During the 1986-87 school year, the Leadership Academy applied for and was awarded a federal grant under the Leadership in Educational Administration Development (LEAD) Program. Missouri's grant proposal was developed with the assistance of an advisory committee which included principals, superintendents, higher education personnel, a foundation representative and members of the business community. The federal LEAD grant has been supplemented with additional monies from the state, the Danforth Foundation and the Greater Kansas City Community Foundation and Affiliated Trusts.

The purpose of the LEAD program is to further expand professional growth opportunities for Missouri school leaders. The Leadership Academy staff hopes that within the next six years, the majority of Missouri administrators will have opportunities to increase their knowledge and skills in the areas of instruction, leadership and management. A special effort is being made to involve women and minorities in LEAD projects.

Modeled on the highly successful St. Louis Principals' Academy, the Satellite Academy Program offers long-term, close-to-home opportunities for professional growth.

The largest LEAD grant project, the Satellite Academy Program, was launched during the 1987-88 school year. The Satellite Academy offers Missouri school leaders the opportunity to take part in long-term, close-to-home professional growth activities. A satellite program is operating in the areas surrounding each of the eight state universities. These are the goals of the Satellite Academy Program:

Professional Growth. Participants improve their knowledge and skills in ways that can be verified by members of the group. Assessments of leadership

Missouri law has required performance-based evaluation for teachers since 1983 and for administrators since 1985. Workshops to help administrators sharpen their evaluation skills have become an important part of the Leadership Academy's annual offering. Dr. Jerry Valentine (pictured) of the University of Missouri-Columbia is a nationally recognized authority on performance-based evaluation. During 1987-88, he led several basic and advanced workshops for the academy on both teacher and principal evaluation.

skills, personality, interests and instructional knowledge are used in development of personal growth plans.

School Improvement. Participants use validated change strategies and practices to strengthen their own school-improvement efforts locally. A school-improvement plan is developed by each individual during the year. At the end of the year, the participant has goals and improvement strategies for the next five years.

Collegiality. Participants establish a network among themselves to encourage and support each other as they clarify their roles and implement changes.

Continuous Improvement. Participants are encouraged to embrace lifelong learning and improvement as essential characteristics of effective school administrators.

Assisting each satellite program is a "facilitator team" consisting of an experienced school administrator, a university representative and Leadership Academy staff member. These teams completed a week of intensive training in group dynamics, facilitator skills and improvement strategies. The training was provided by the Institute for Development of Educational Activities (IDEA), directed by Dr. John Paden.

Each satellite group designs its own program based on the needs and interests of its members. Every participant's leadership skills and styles are assessed to determine individual and group goals. Each group hears consultants and carries out other projects of its choice to address those goals. In addition, participants develop individual professional-growth and school-improvement plans.

This year, 122 practicing and aspiring school administrators participated in seven days of organized activities at the regional level and eight days at the state level. Topics covered at state-level meetings included change, effective school culture, power, and leadership.

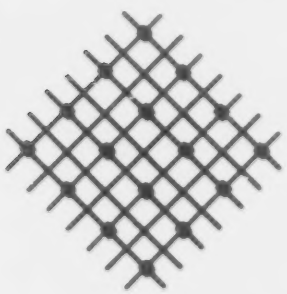
Another component of the LEAD program is the Network for Women in School Administration. This network for practicing or aspiring female school leaders sponsored its first conference in February 1988. Designed to meet specific needs and interests of the women enrolled, network programs focus on research that indicates females interested in advancing in school administration need to be more competent, more visible and have "sponsorship." The value of collegial support, mentoring and shared experience is emphasized in all activities.

In addition to sponsoring winter and summer conferences, the network publishes a quarterly newsletter and offers summer internship opportunities, regional support groups and tuition scholarships to national workshops.

Serving on the Network's leadership team are Dr. Joyce Dana, deputy superintendent, Springfield School District; Julie Leeth, principal, Jarrett Junior High School, Springfield; Gail Worrell, assistant principal, Wydown Junior High School, Clayton; and Carol Duncan of the Leadership Academy staff.

The LEAD funds also support a scholarship program and a yearlong sabbatical for one outstanding Missouri educator. Members of the satellite academy groups and the women's network applied for tuition scholarships to

The Network for Women in School Administration helps practicing and aspiring female school leaders refine their skills.



Building a Reputation for Excellence

The Leadership Academy asks participants in each of its workshops to evaluate the program. Evaluations have enabled the academy to modify its programs to better serve Missouri school administrators. In response to evaluations, the academy offered workshops in regional locations, added specific presenters to its roster and introduced workshops on requested topics. The evaluations have been extremely positive in most cases and have shown that the Leadership Academy is filling a void by providing quality, convenient training for practicing administrators. Here's what participants had to say about some of the academy's 1987-88 programs.

About the Effective Schools Workshops. . .

"This series resulted in some changed instructional practices in my school and improved instruction. . .for the students."

"Collegiality and sharing were high points."

About the Satellite Academy Program. . .

"I am sad that the year is over. This has been one of the best learning experiences I have had in my career. . . .The collegiality and continuous learning are opportunities that I would not otherwise have had."

About *Time Management and Other Administrative Skills* with Ivan Fitzwater. . .

"This workshop was better than a Ph.D.!"

"If you want to reach your full professional potential, you need to attend this seminar."

attend a variety of well-known professional development programs in 1987-88. Twenty-nine scholarships were awarded. Recipients attended the Harvard Principal's Center (8), the Vanderbilt Principal's Institute (4), the American Association for School Administrator's National Executive Development Center (6), and other programs sponsored by national education organizations (11).

Dr. Jerry Valentine, professor of educational administration at the University of Missouri-Columbia, was awarded the sabbatical for 1987-88 to assist with the development of the Missouri Administrator Assessment Center. Susan Robins, who is on leave from her position as principal of Grandview Junior High School to complete a fellowship with the Kansas City Learning Exchange, has been awarded the 1988-89 sabbatical to assist the satellite academy facilitator teams.

Looking Ahead

The Leadership Academy will begin its fourth year of operation in 1988-89. Plans are to continue offering a full schedule of workshops in regional and central locations. The federal grant for LEAD projects will continue for two more years. At that point, the academy expects to offer the programs with state and private foundation funds.

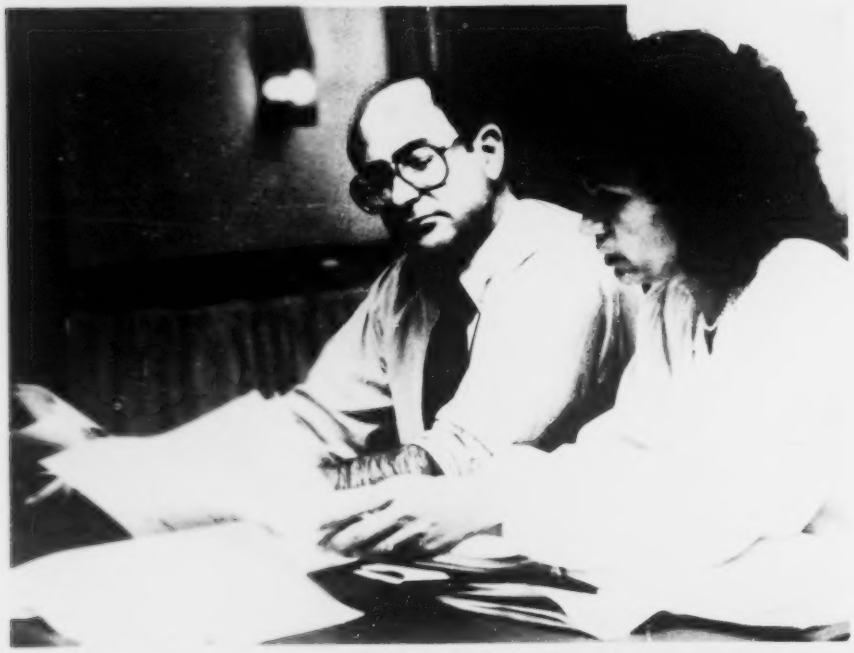
The Leadership Academy also will launch several new initiatives in 1988-89. The most far-reaching of these is the Missouri Administrator Assessment Center, another program created by the Excellence in Education Act of 1985 to strengthen school leadership. After Sept. 1, 1988, the knowledge and skills of prospective principals and superintendents must be assessed *before* they can receive their initial administrator certification.

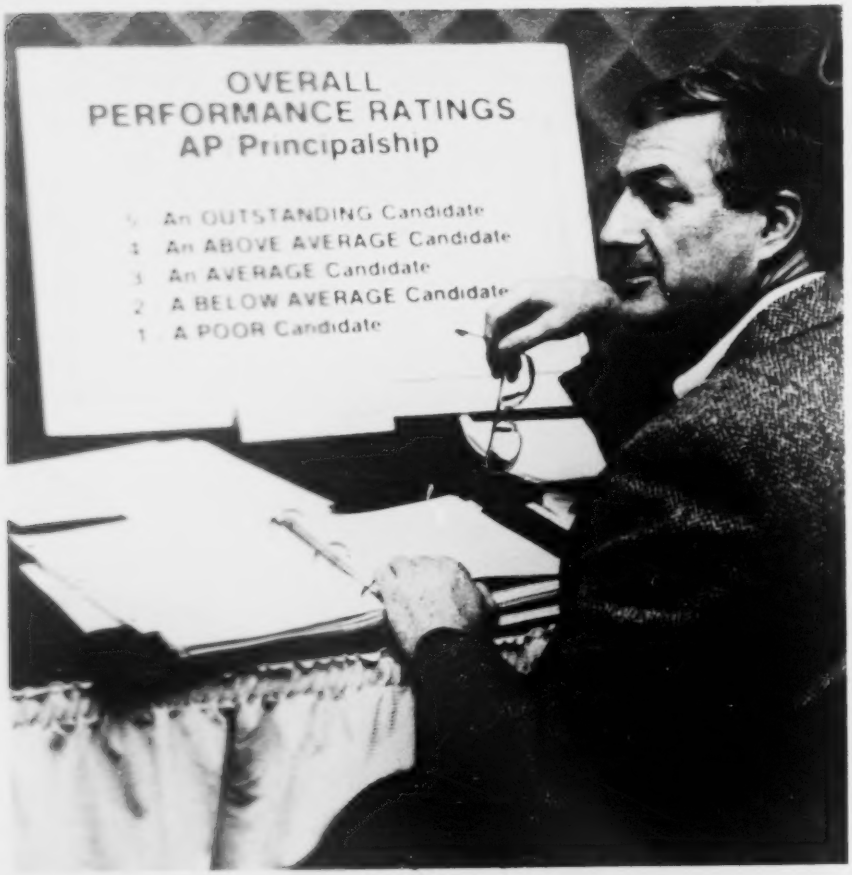
Working with an advisory committee of administrators, higher education representatives, and business and civic leaders, the Leadership Academy has developed two different assessments—one for building-level administrators and one for district-level administrators. The building-level assessment includes the model assessment process developed by the National Association of Secondary School Principals (NASSP), plus a written exam based on a set of educational leadership competencies identified by the advisory committee. Candidates for superintendent certification will be assessed by a method similar to the NASSP model for building-level administrators and also will be required to take a written exam based on the Missouri leadership competencies.

A four-hour written exam is part of the administrator assessment which becomes mandatory after Sept. 1, 1988. The test is based on a set of "Educational Leadership Competencies" identified by practicing Missouri administrators. Prospective principals (above) took the exam during a pilot assessment center conducted by the Leadership Academy in May 1988. Participants in the two-day assessment also completed five simulation activities and a structured interview, designed by NASSP.

The Leadership Academy field tested the two-day, building-level assessment program in 1987-88. Ten school districts assisted by sending candidates for principalships to four pilot assessment centers.

The Leadership Academy plans to





operate assessment centers nearly every month next year and expects to assess about 100 prospective administrators during the first year of the new program.

The academy also will offer the Springfield Development Program, a NASSP program for principals who have been in the job for five years or less. The program focuses on development and refinement of these key skills: problem analysis, judgment, organizational ability, decisiveness, leadership, and sensitivity. During an initial three-day workshop with NASSP facilitators, participants will operate the simulated "Springfield School District." Then a mentor will provide four to six weeks of on-the-job coaching. The program will conclude with a one-day, follow-up seminar.

"LEADER 1-2-3," a new project funded under the federal LEAD grant, also will be introduced during 1988-89. LEADER 1-2-3 is another program developed by NASSP and is designed to help principals, assistant principals and other administrators improve their instructional leadership skills. The program includes assessment of the participant by himself and others, practice of skills in a three-day seminar with coaching and videotaped feedback, practice on the job with the assistance of a developmental coach, and a one-day, follow-up seminar.

In the assessment process, six specially trained assessors observe and evaluate each candidate for administrator certification. Archie Sinclair is one of 200 Missouri educators who have completed the rigorous, four-day assessor training program developed and conducted by NASSP. Left, Sinclair, who is principal of Indian Creek Elementary School in the Center School District, reviews assessment procedures before the May 1988 pilot center. Above left, Jahala Long and Wayne Fields discuss a preliminary report on a pilot assessment center participant. Long is a member of the Leadership Academy staff and Fields is principal of McCluer High School in the Ferguson-Florissant School District.

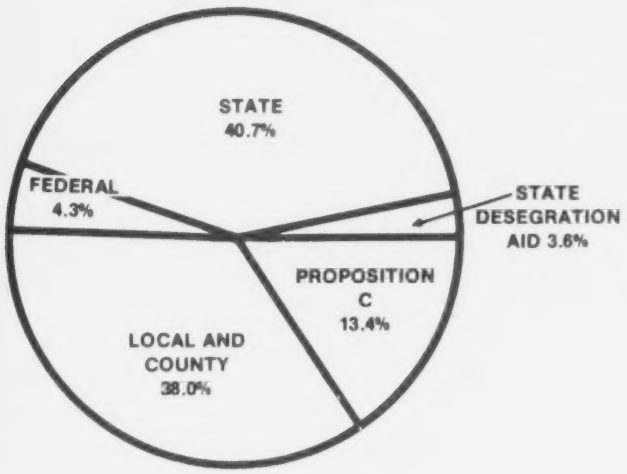
Statewide Statistics

GRAPH I

RECEIPTS—BY SOURCES AVAILABLE FOR USE FOR CURRENT EXPENDITURES—1987-88



GRAPH II

REVENUE AND NON-REVENUE RECEIPTS IN PUBLIC SCHOOLS—1987-88

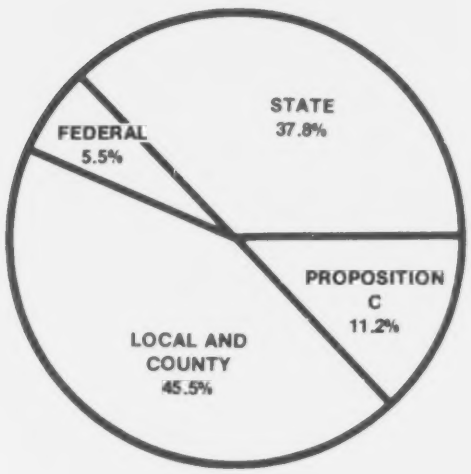


TABLE 1a
RECEIPTS–BY SOURCES AVAILABLE FOR USE FOR CURRENT EXPENDITURES–1987-88

Sources	Amount	Percent
Local and County[1]	$1,052,699,584	38.0%
School District Trust Fund (Proposition C)*	370,328,899	13.4%
State[2]	1,127,611,023	40.7%
State Desegregation Aid	101,126,373	3.6%
Federal[3]	119,410,868	4.3%
Total	$2,771,176,747	100.0%

*Adopted by initiative, Proposition C, November 2, 1982.

Formula:

Part A. 1. Local and County from Part B-1, plus result from Part C.
2. State from Part B-2.
3. Federal from Part B-3.

Part B. Incidental and Teachers Funds

1. Local, Part II, 5199 plus 5299 in columns one and two; minus 5123 and 5180 in one and two; minus 6510, 6520, 6530, 6541, 6542, 6551, 6552, and 6590 on Part III C, column 1; minus 5150 on Part II, column 1; minus 5170 on Part II, columns one and two.
2. State, Part II, 5399, columns one and two minus 5371 on column one.
3. Federal, Part II, 5499, columns one and two minus 5436 in column one; minus 1.2 percent of 5411, 5429, 5432, 5433, 5434, 5435, and 5440 in columns one and two.

Part C. A portion of Building Fund that is current (III C, column four, 6510 plus 6520, plus 6530, plus 6541, plus 6542, plus 6551, plus 6552, plus 6590, plus 6620).

Less Part II, column four, 5610 plus 5690, 5499, 5399. If negative, erase number and go to Part A. If positive, subtract this value from Part II, column four, 5111 plus 5112, plus 5113, plus 5114, plus 5140, plus 5190, plus 5221, plus 5231. If result negative, erase number and go to Part A. If positive, save number and add to Part A.

District data available in Table 4, Part IV.

TABLE 34
SUMMARY OF NUMBER OF SCHOOL DISTRICTS

School Year Ending June 30	School Districts		
	Total	High School*	Six-Director Elementary†
1976	563	456	107
1977	562	457	105
1978	557	456	101
1979	556	456	100
1980	554	454	100
1981	549	456	93
1982	547	456	91
1983	546	455	91
1984	546	454	92
1985	546	452	94
1986	544	451	93
1987	545	452	93
1988	545	452	93

*The term high school represents districts operating both elementary and high schools.
†The term elementary represents districts operating elementary schools only.

TABLE 35
CLASSIFICATION DATA

A. SUMMARY OF SCHOOL DISTRICT CLASSIFICATION — 1987-88

	AAA	AA	U	Total
Classified High School Districts	193	257	2	452*
Classified Elementary Districts	2	47	44	93
State Institutional Schools	—	—	—	11

*452 districts maintained 509 senior high schools.
NOTE: 538 public school districts operated kindergartens.

B. SCHOOLS HOLDING MEMBERSHIP IN THE NORTH CENTRAL ASSOCIATION–1987-88

Public Senior High Schools	144
Public Junior High/Middle Schools	25
Public Elementary Schools	34
High Schools of State Institutions	3
Nonpublic High Schools	57
Total	263

TABLE 37

SUMMARY OF COURSES OFFERED IN SUBJECT MATTER FIELDS

Number of Course Titles: There is a listing of course titles for each major area published each year (see Table 36). This number is the aggregate of that listing by area.

Duplicated Count of Students: If a student is enrolled in more than one course in a major area, the student will be counted for each course.

Percent of 9-12 Students Enrolled: This is a ratio of students enrolled in the major areas divided by state fall enrollment for 9-12 grades. The comparison of years shows activities of areas.

Year	# of Course Titles	Duplicated Count of Students	% of 9-12 Fall Enrollment
	Agriculture		
87-88	30	20,223	8.3
86-87	30	20,497	8.2

Behavior Disorders	7,406	764.75	10,698,100
Teacher Aides		2,219.25	6,657,750
Professional Personnel		874.00	5,244,000
Homebound/Contractual	3,763		1,009,241
Summer School			646,551
Totals	109,264	9,390.50	$100,676,019

*Remedial Reading no longer administered by Special Education Section. During 1987-88, $9,020,162 were distributed for 1,105 F.T.E. teachers in the program.

b. State Schools for Severely Handicapped — Statistical Summary

Attendance Schools	Aggregate Days Membership	Days In Session	ADM	Total Days Attendance	ADA	Number Pupils Transported
52	362,502	174	2,083.4	321,120	1,845.5	2,149

c. Sheltered Workshops — Statistical Summary

Number of Workshops	Number of Handicapped Workers	Total Wages	Average Hourly Wage	Total State Aid Paid to Workshops
85	5,783	$8,527,975.68	$1.03	$7,580,069.15

C. MISSOURI SCHOOL TRUST FUNDS

Section 162.790 (5) RSMo., authorizes the State Board of Education to accept grants, gifts, donations, or bequests for the use of the Missouri Schools for the Blind, for the Deaf, and for the Handicapped Children to deposit same in the Schools' Trust Fund in the State Treasury, or to invest such funds in stocks, bonds, deeds of trust, or any other investment securities in the amounts and in the proportions that the State Board of Education prudently selects.

The act further provides that "moneys in the School for the Blind Trust Fund or in the School for the Deaf Trust Fund or the School for the Handicapped Children Trust Fund shall not be appropriated for the support of the schools in lieu of general state revenues but shall be appropriated only for the purpose of carrying out the object for which the grant, gift, donation, devise or bequest was made," as recommended by the State Board of Education.

Office Supplies	2,957.82	
Repair & Maintenance	340,314.46	
Therapeutic Expense	167,120.07	
Instructional Expense	49,814.28	570,549.47
Fund Balance, June 30, 1988		$5,145,486.85

TABLE 41
VOCATIONAL REHABILITATION
A. Summary Data for Year Ending September 30, 1988

Persons Served and Rehabilitated		Average Cost	
Served	Rehabilitated	Per Case Served	Per Case Rehabilitated
35,477	5,410	$1,002.44	$6,573.68
17,854*		$1,991.91*	

*Denotes active cases only. Prior to Fiscal Year 1985, total cases served were required to be reported to the federal government.

B. Services and Cost to the 5,410 Clients Rehabilitated

Services	Number of Clients with Cost	Total Cost
All Services*	5,044	$14,226,466

*The costs represent only amounts spent for services purchased by the agency. Some services have been obtained free of charge or may have been paid for, wholly or in part, by other organizations, interested individuals or by the client himself. Excludes cost of administration, counseling, guidance and placement.

C. Jobs After Rehabilitation

Professional, Technical & Managerial Occupations	865
Clerical and Sales Occupations	846
Service Occupations	1,232
Farming, Fishery, Forestry, & Related Occupations	106
Industrial Occupations	1,056
Work in Sheltered Workshops	974
Homemakers (own home) and Other Unpaid Family Workers (own home)	331
Total	5,410

D. Earnings at Referral and at Closure to 5,410 Rehabilitants

Weekly Earnings at Referral	Number of Rehabilitants	Weekly Earnings at Closure	Number of Rehabilitants
None	4,298	None	332
$001-049	186	$001-049	944
$050-099	286	$050-099	576
$100-149	268	$100-149	1,103
$150-199	158	$150-199	915
$200-249	114	$200-249	691
$250-299	43	$250-299	347
$300-349	20	$300-349	197
$350-399	16	$350-399	110
$400-449	9	$400-449	82
$450-499	2	$450-499	33
$500+	10	$500+	80
Average weekly earnings at referral			$26
Average weekly earnings at closure			$145
Increase in average weekly earnings			$119*

*With an increase in average weekly earnings of $119 for the 5,410 rehabilitants, the total annual increase in earnings would amount to $33,477,080.

E. Disability Determinations Section processed 57,813 cases during the fiscal year 1988.

TABLE 42
TESTING AND ASSESSMENT PROGRAM DATA

A. Summary of 1987-88 BEST Test

BEST	Percent Passing Test
Reading	97.5
Math	90.2
Government/Economics	90.9
All Three Subtests	84.1

Passing Criteria: At least 1 of 3 items correct on each of the 13 objectives and at least 75 percent of the subtest items correct.

Testing Dates: March 1-15, 1988

Number of eighth graders included in this analysis: 43,124

Total number of eighth grade students: 58,423

B. Missouri Mastery and Achievement Tests Statewide Scaled Scores

Grade	Reading		Math		Science		Social Studies		Average

TABLE 46
EARLY CHILDHOOD EDUCATION

The 1984 Early Childhood Development Act (ECDA) authorizes local school districts to provide annual screening and parent education to families with preschool-aged children. Offered voluntarily and gratuitously to parents, these services are designed to detect and minimize problems that can interfere with children's growth and development and to support parents in their "teaching" role. State appropriations have grown from **$2,873,685** in 1985-86 to more than **$11,000,000** for 1988-89.

A. Screening Results — ECDA

Years of Age	Number Actually Screened	Possible Problems Identified									
		Language		Motor		Vision		Hearing		Physical	
1 and 2	31,194	2,031	(6.5%)	939	(3.0%)	628	(2.0%)	2,791	(8.9%)	1,332	(4.3%)
3 and 4	45,788	6,077	(13.3%)	4,759	(10.4%)	1,918	(4.2%)	4,781	(10.4%)	1,419	(3.1%)
Totals	76,982	8,108	(10.5%)	5,698	(7.4%)	2,546	(3.3%)	7,572	(9.8%)	2,751	(3.6%)

Parent education services are available on an ongoing basis from the third trimester of pregnancy to kindergarten entry. Grouped by developmental stages of their children, parents gather regularly to share parenting experiences and to receive developmental information. Periodic home visits are delivered by parent educators with varying backgrounds; all are required to successfully complete program training. Drop-in play groups, toy and book lending libraries, "warm" lines, newsletters, and information and referral networks are services that meet the varying needs of families.

B. Parents As Teachers - ECDA

	1985-86	1986-87	1987-88
State Allocation	$2,658,750	$5,317,500	$7,976,250
Number of Families Served	15,975	30,166	39,159
